

EL MEHDI TABI

Full-stack developer

+212 6 10-96-21-63 • elmehditabi0@gmail.com • Casablanca, Maroc • <https://elmehditabi.vercel.app/>

PROFILE

Full-stack developer with two years of intensive training and professional experience in designing complex web applications. Proficient in Node.js/Express, Laravel/PHP, and React.js, with a clean architecture, API-first approach, and a focus on code quality. Capable of managing a project from database modeling to production deployment. Experienced in agile environments, autonomous, and results-oriented.

TECHNICAL SKILLS

Front-End	HTML5 · CSS3 · JavaScript (ES6+) · React.js · SCSS · Bootstrap · Tailwind CSS
Back-End	PHP · Laravel · Node.js · Express.js · RESTful APIs · Microservices · Python
Bases de données	MySQL · MongoDB
DevOps / Outils	Git · GitHub · Docker · Postman · Linux · Jira
Méthodes	Scrum · Kanban · MVC · Architecture en couches

PROFESSIONAL EXPERIENCE

Full-Stack Developer — Internship | Magna Tech, Casablanca · Jan. 2026 – Mar. 2026 (3 months)

- ▶ Leading a team of 4 developers for the design and development of a multi-center ERP covering learner registration, course management and multi-site accounting tracking.
- ▶ Design of the MySQL database schema with ACID transactions, referential integrity constraints and query optimization for multi-site operations.
- ▶ Implementation of the Git workflow (feature/develop/main branches, pull requests, code review) and tracking of tasks via Jira using the Scrum method.

TECHNICAL PROJECTS

Azlag Shop — E-Commerce *Laravel · MySQL*

Development of an e-commerce platform for selling watches with Laravel, integrating user management, product management, order management and an administration dashboard.

Smart Slides — Plateforme de Révision *Express.js · MongoDB · JWT*

Modular REST API: layered architecture (routes → controllers → services → models), JWT authentication with refresh tokens, centralized error handling. Native integration with Google Meet, Microsoft Teams, and Discord for automatic session start-up.

Ana Watches *Nodejs · Expressjs · EJS · JWT*

Development of an e-commerce platform for watches named Ana Watches with Express.js, EJS, MongoDB and JWT, including a secure authentication system, product, shopping cart and order management, as well as a responsive interface and an administrator dashboard.

Car Rental App *React.js · SCSS · JavaScript (ES6+)*

React booking app: dynamic multi-criteria filtering (category, price, availability), detailed car listings, reusable components and centralized state with React Hooks. Mobile-first responsive design, modular SCSS.

TRAINING

Specialized Technician — Digital Development (Associate's Degree) · CMC Casablanca-Settat, Group of Excellence · 2024 – 2026

Scientific Baccalaureate — Physical Sciences · Ibn Abbad High School, Settat · 2023
